

Recap: 2016 Mintz/ML Strategies Pharmacy Industry Summit

May 19, 2016 || By Theresa Carnegie

The pharmacy industry is under increasing scrutiny from all angles. Whether at the legislative or agency level, Washington as well as many states seem intent on addressing perceived issues surrounding drug pricing, reimbursement, and program integrity. For these reasons, **Mintz** and **ML Strategies** brought together stakeholders and **thought leaders** from across the industry to share knowledge and insight on this rapidly shifting landscape at the 2016 Mintz/ML Strategies Pharmacy Industry **Summit** in Washington, DC on May 10.

As drug pricing was a common thread throughout the Summit, those in the pharmacy industry may be interested in a recent **ML Strategies White Paper "Transparency in Drug Pricing: Issues to Consider from the Research Lab to the Consumer."**

Here's some of the **#MLPharma** Twitter buzz:
