

ML Strategies Health Care Preview - Week of January 28, 2019

January 29, 2019 | | By

The shutdown fight is over for now and Congress is ready to get the work of the 116th Congress underway. This week, there will be four relevant hearings to health care stakeholders, two of which will center around prescription drug pricing. The other two will look at pre-existing conditions and community health center related policies. On the regulatory side, we wait and see if the Administration will be putting forth any regulations in this space, in particular the discount safe harbor rule.

We cover this and more in this week's preview which you can find by [clicking here](#).
